Accepting Yourself - This is one of the most positive and uplifting CD's I've ever recorded. Channeled from the Ascended Masters - the material contained within will help you to see yourself in a new and empowered way - helping you to accept that you truly matter and are an important partner in creation of the new reality of awakening awareness that we are all co-creating.

And The Truth Shall Set You Free - Channeling. This CD incorporates the heightened energies of awakening and features channeling from the I Am That I Am, Mother Mary and Quan Yin and the uniquely expanded frequencies embedded in their messages.

If you are open to it, this disc can help you to gain a deeper understanding of who you are - freed from the thoughts and fears of the past. "Come now and allow yourself to be uplifted by the soothing words of Loving Acceptance."

The Nature of Fear - Group Discussion on whether there truly will be a struggle between good and evil as prophesied by religion and the bible or is it all just a metaphor for the battle between Ego and the Higher Self. I bet you know what side I come in on

Introduction to Reiki - This is an excellent CD for those who have wanted to learn about Reiki and its benefits. It contains specific information on what Reiki is and how it works, as well as real stories from clients and students about how Reiki has helped them op let go of fears, hurts and physical ailments. You will be entranced by their stories and excited by the possibilities of whta Reiki can do for you!

The Coming Ascension of 2012 - Group Discussion - Its long been prophesied by the Major Religions and Cultures around the World that we are at the End Times of History. But what's coming? Is it the end of all we know or is it the beginning of a grand new adventure?

In this CD, Gary will discuss some of the various theories and possibilities of what is to come.

The Higher Self Handbook Companion - This disc presents a lecture I gave on "The Higher Self Handbook" at the New Life Expo in 2005. In that presentation, I spoke about the concepts and ideas contained in the book and lead the audience through some of the exercises. This CD is full of insights and tools to help you become more fully who you are.
